RFB-2011-07, CABINETS AND POWER

I. INTRODUCTION

A. General Information

Florida Rural Broadband Alliance, LLC (FRBA) is requesting bids from qualified firms to provide the required network equipment to complete the FRBA Wireless Middle Mile Network in Florida. This is an EQUIPMENT ONLY bid, no installation services are being sought as part of this procurement. This RFB is for the purchase of Cabinets and Power Materials for the FRBA project as described more fully herein.

FRBA is a newly formed Limited Liability Company, established specifically for the purpose of bringing Broadband services to the region. The company formed through the regional cooperation of local governments, economic development agencies and community activists from rural disadvantaged communities located in 15 Florida counties designed to meet the essential and advanced broadband network needs of unserved and underserved communities in the Northwest Florida Rural Area- of Critical Economic Concern and the South Central Rural Area of Critical Economic Concern (RACECs). These RACECs consist of Calhoun, Franklin, Gadsden, Gulf, Holmes, Jackson, Liberty and Washington Counties in the Northwest Florida region and Desoto, Glades, Hardee, Hendry, Highlands and Okeechobee Counties, as well as the unincorporated area of Immokalee in Collier County in the south central region of Florida.

The American Recovery and Reinvestment Act (ARRA) provided the Department of Commerce's National Telecommunications and Information Administration (NTIA) and the U.S. Department of Agriculture's Rural Utilities Service (RUS) with \$7.2 billion to expand access to broadband services in the United States. Of those funds, the Act provided \$4.7 billion to NTIA to support the deployment of broadband infrastructure, enhance and expand Comprehensive Community Infrastructure (CCI), encourage sustainable adoption of broadband service, and develop and maintain a nationwide public map of broadband service capability and availability through the Broadband Technology Opportunities Program (BTOP). FRBA was awarded a BTOP grant in the amount of \$23,693,665 pursuant to BTOP award #NT10BIX5570122 on August 1, 2010 to fund deployment of the FRBA Rural Middle Mile Networks— Northwest and South Central Regional Projects. The FRBA project will build new Middle Mile broadband infrastructure, which will extend the high speed internet backbone capacity to local last-mile providers and community anchor institutions in order to serve vital public sector services and private sector commercial customers within the RACECs. The Project must be completed and the grant closed out by August 1, 2013. As a result, time is of the essence in performance of all tasks necessary for satisfy these deadlines, including the procurement, delivery and installation of the network equipment.

This procurement will be financed using federal assistance authorized by the American Recovery and Reinvestment Act of 2009 (ARRA). Any contract resulting from this solicitation will require that the vendor and any subcontractor comply with all provisions of the ARRA and the BTOP program.

Respondents must certify, by submission of their bid, that neither the vendor nor its principals is

presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

FRBA supports Drug Free Workplace Policies and is an Equal Opportunity Employer (EOE). Qualified applicants and vendors are considered for employment without regard to age, race, color, religion, sex, national origin, disability, or veteran status.

FRBA encourages participation from locally owned, minority-owned, female-owned and disabled-owned small businesses. Proposers should indicate in their proposal whether and to what extent their company or others participating in their bid satisfy such criteria
